

Usability Test Information and Consent Form

Project: Navio App Prototype Testing (SWEN303)

Purpose:

We are testing a prototype of our Navio app to understand how easy it is to use. Your participation will help us identify areas for improvement and make the app better. We are testing the app, not you.

What You Will Do:

You will be asked to perform a series of tasks using a prototype of the Navio app in Figma. We will ask you to "think aloud" as you complete the tasks, sharing your thoughts as you go. After the tasks, you will be asked a few questions and then complete a short online questionnaire (System Usability Scale - SUS). The session will be in person with a facilitator and a recorder.

Confidentiality:

All your feedback, comments, and responses will be kept confidential and used only by our project team for analysis and improving the prototype. Your name will not be linked to your specific feedback or results in any reports or presentations.

Voluntary Participation:

Your participation is voluntary. You are free to stop participating at any time, for any reason, without any penalty.

Consent:

I have read the information above and understand the nature of this usability test. I agree to participate in this session and allow my feedback and actions during the test to be recorded and used for the purpose of improving the Navio app prototype. I understand that my identity will be kept confidential.

USER TESTING CONSENT FORM

Prototype Usability Testing

Purpose of the Study:

You are invited to participate in a user testing session as part of a university project. The goal of this study is to evaluate the usability of a mobile application prototype designed to assist users with public transport planning. Your feedback will help us identify areas for improvement and enhance the overall user experience.

What You Will Be Asked to Do:

You will be asked to complete a series of simple tasks using our prototype. After completing the tasks, you will be asked to fill out a short survey (e.g., SUS questionnaire).

Voluntary Participation:

Your participation is completely voluntary. You may withdraw at any time without penalty and you are not required to answer any questions you are uncomfortable with. You may also skip any task if you choose.

Confidentiality:

Any feedback or observations gathered during the session will be used strictly for educational purposes and group project evaluation

Consent:

By signing below, you acknowledge that:

- You have read and understood the information above.
- You voluntarily agree to participate in the usability testing session.
- You are aware that you may withdraw at any time.
