

# 1 Alan's Designs

*Figure 1 This is the opening screen of the designs. It's a map that lets you pick from the menu at the bottom.*

*Figure 2 This is still the Map screen. It showcases when the user drags away from the centre, the button in the bottom right highlights to re-centre the user in the map.*

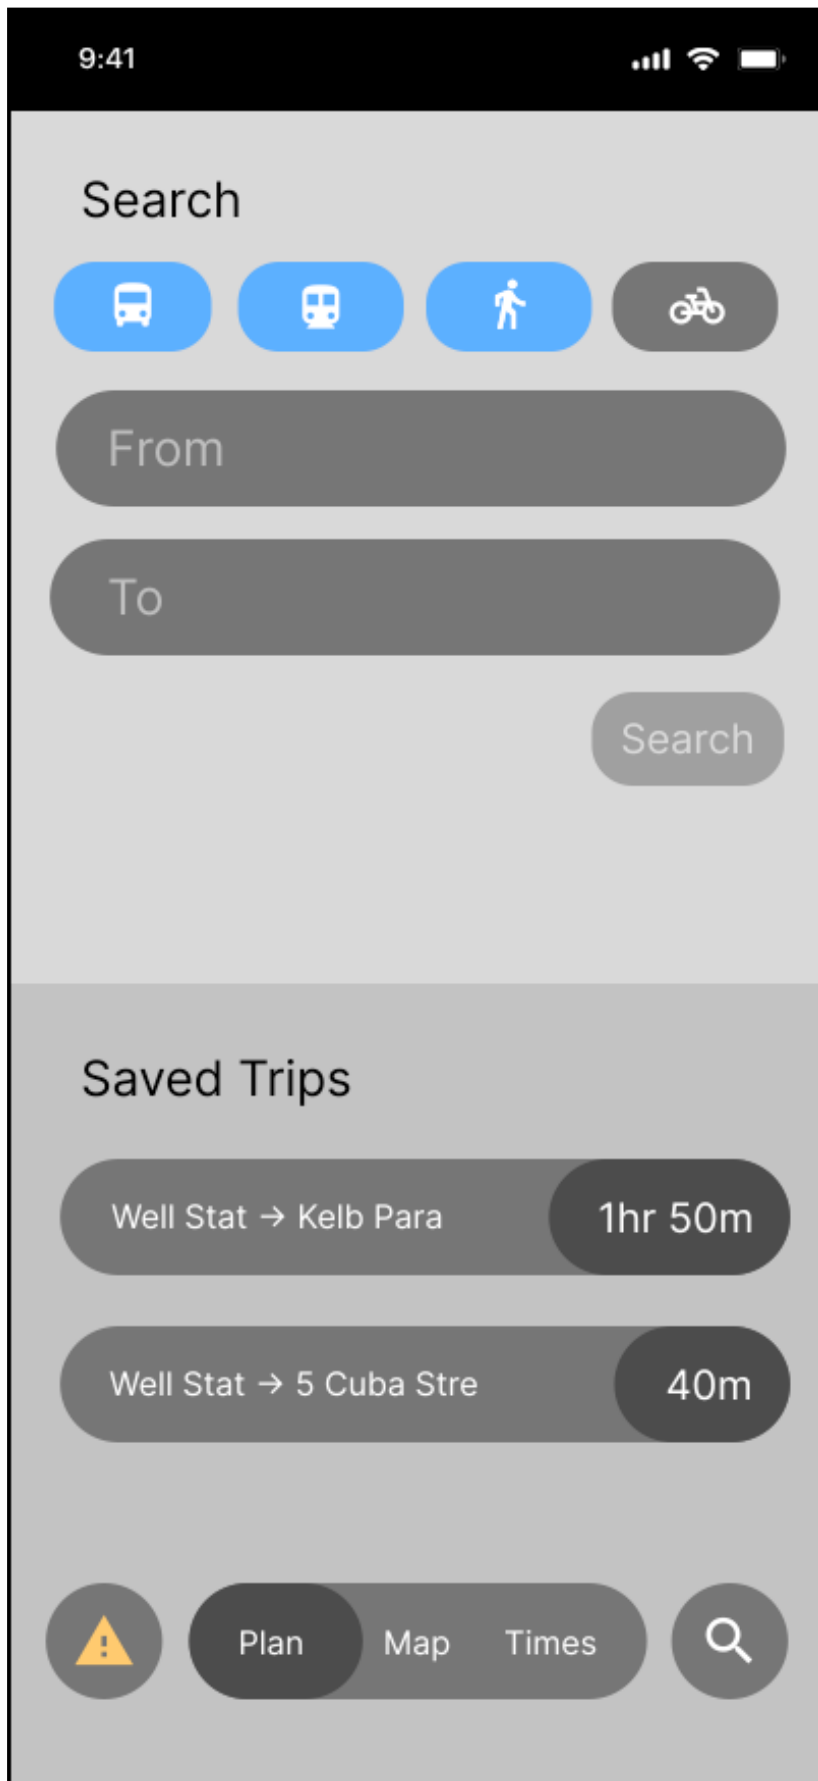

Figure 3 This is the planning screen, selected from the bottom menu. The user can select their saved trips or enter a new “from” and “to” to calculate.

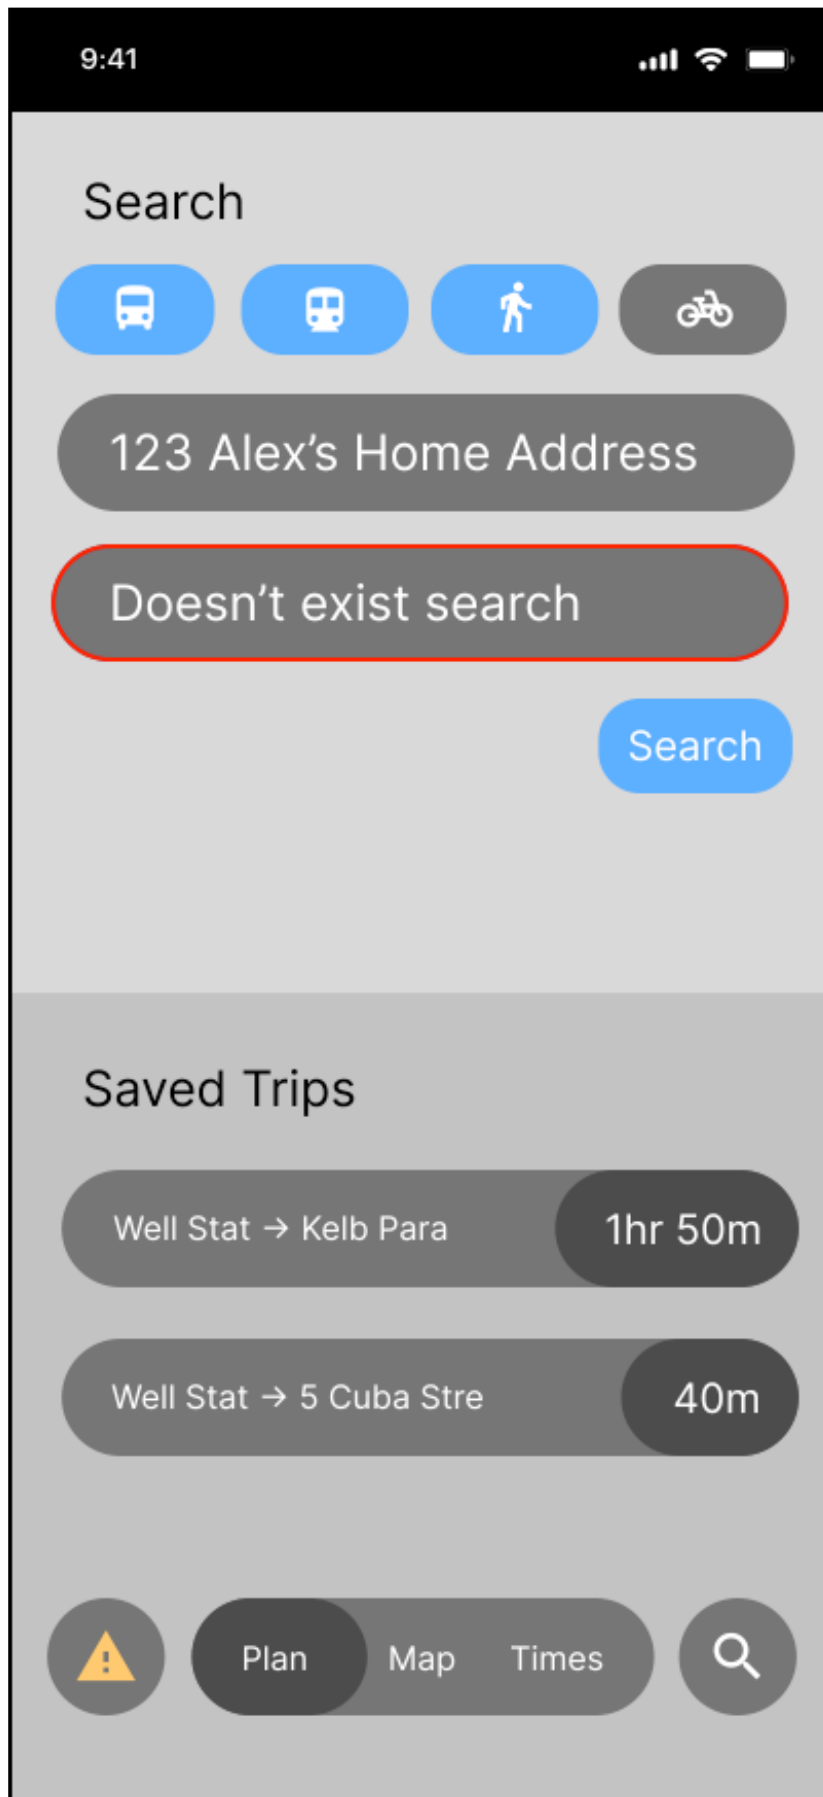

Figure 4 This showcases what happens when a user puts in incorrect address in. The search box will highlight red.

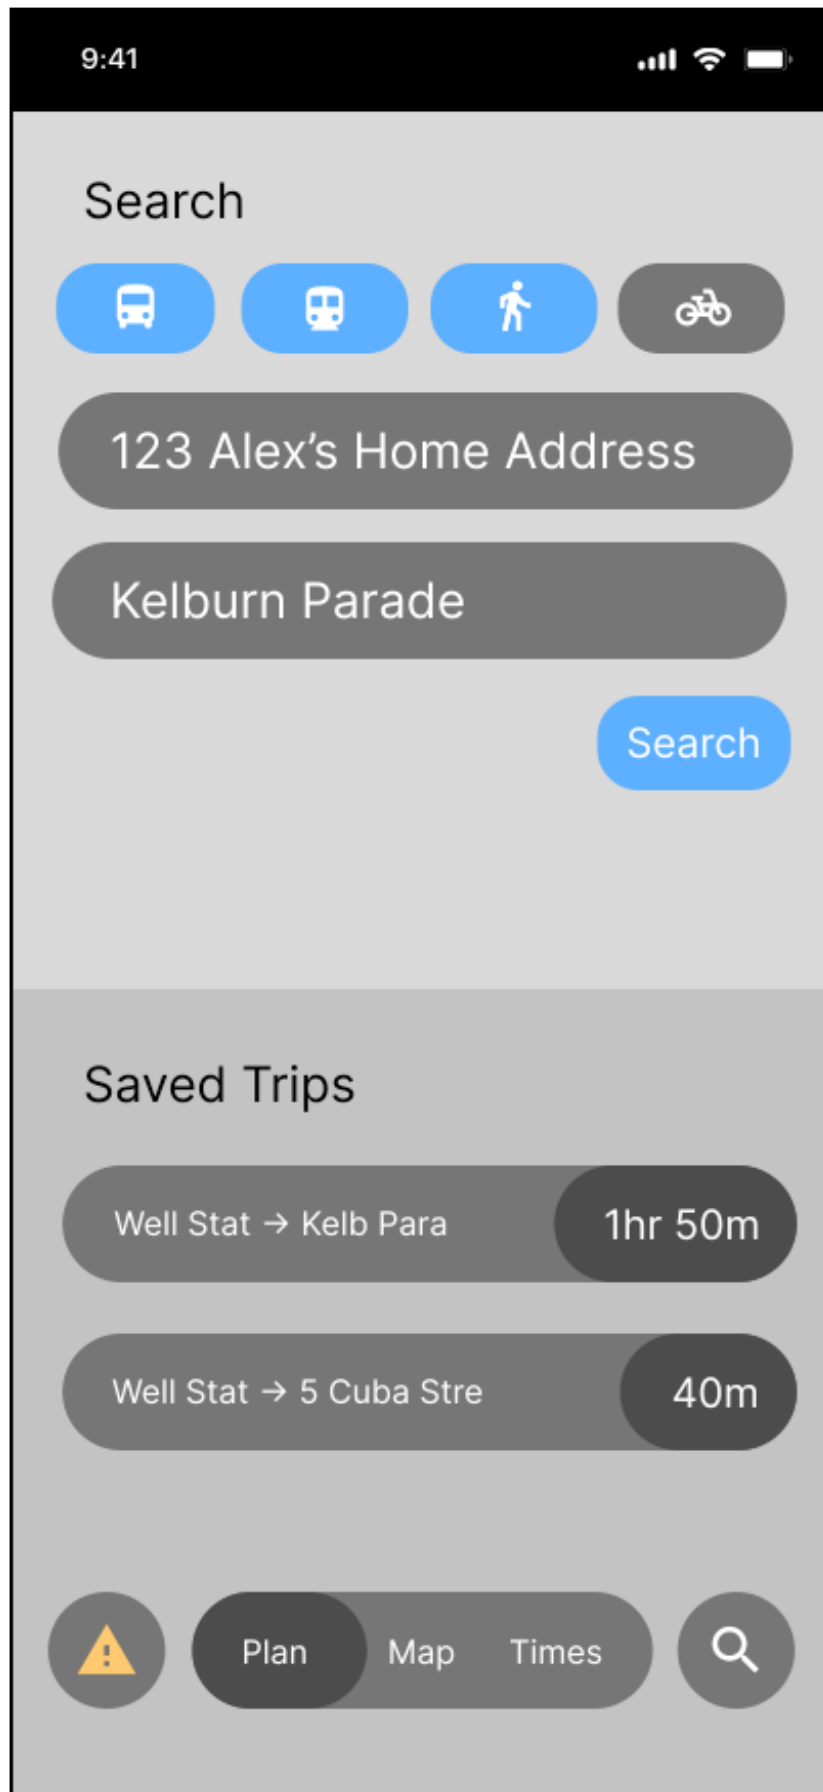

Figure 5 This shows when the "From" and "To" are inputted correctly, the search box lights up. If they weren't filled, then the search is greyed.

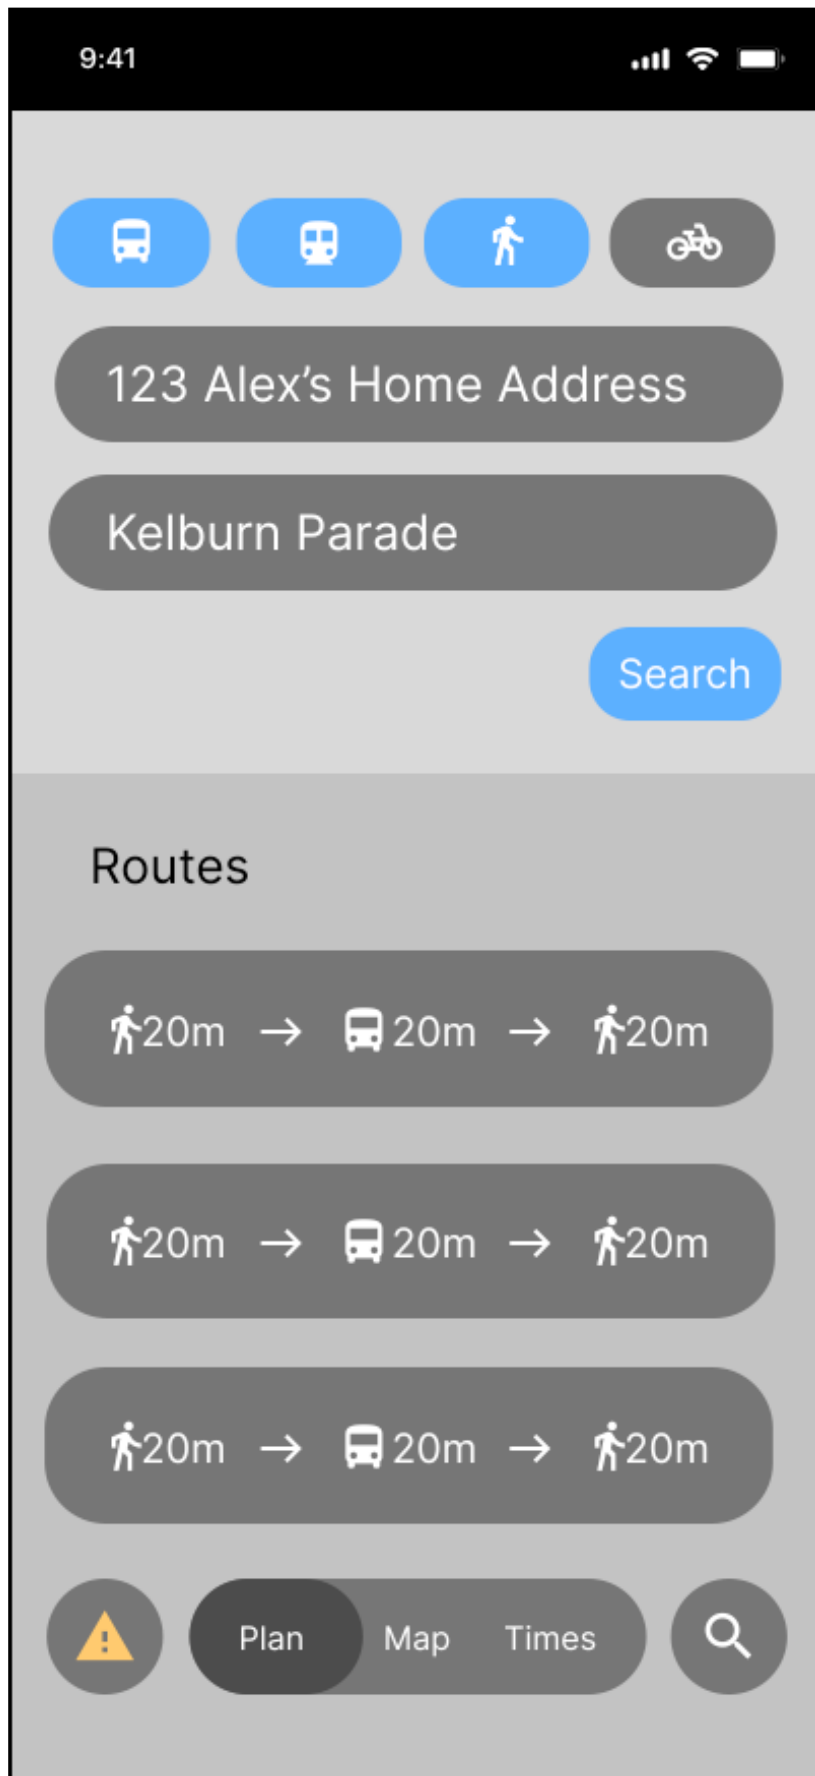

Figure 6 A "routes" menu appears when the user presses "Search". This shows possible routes to go to the destination.

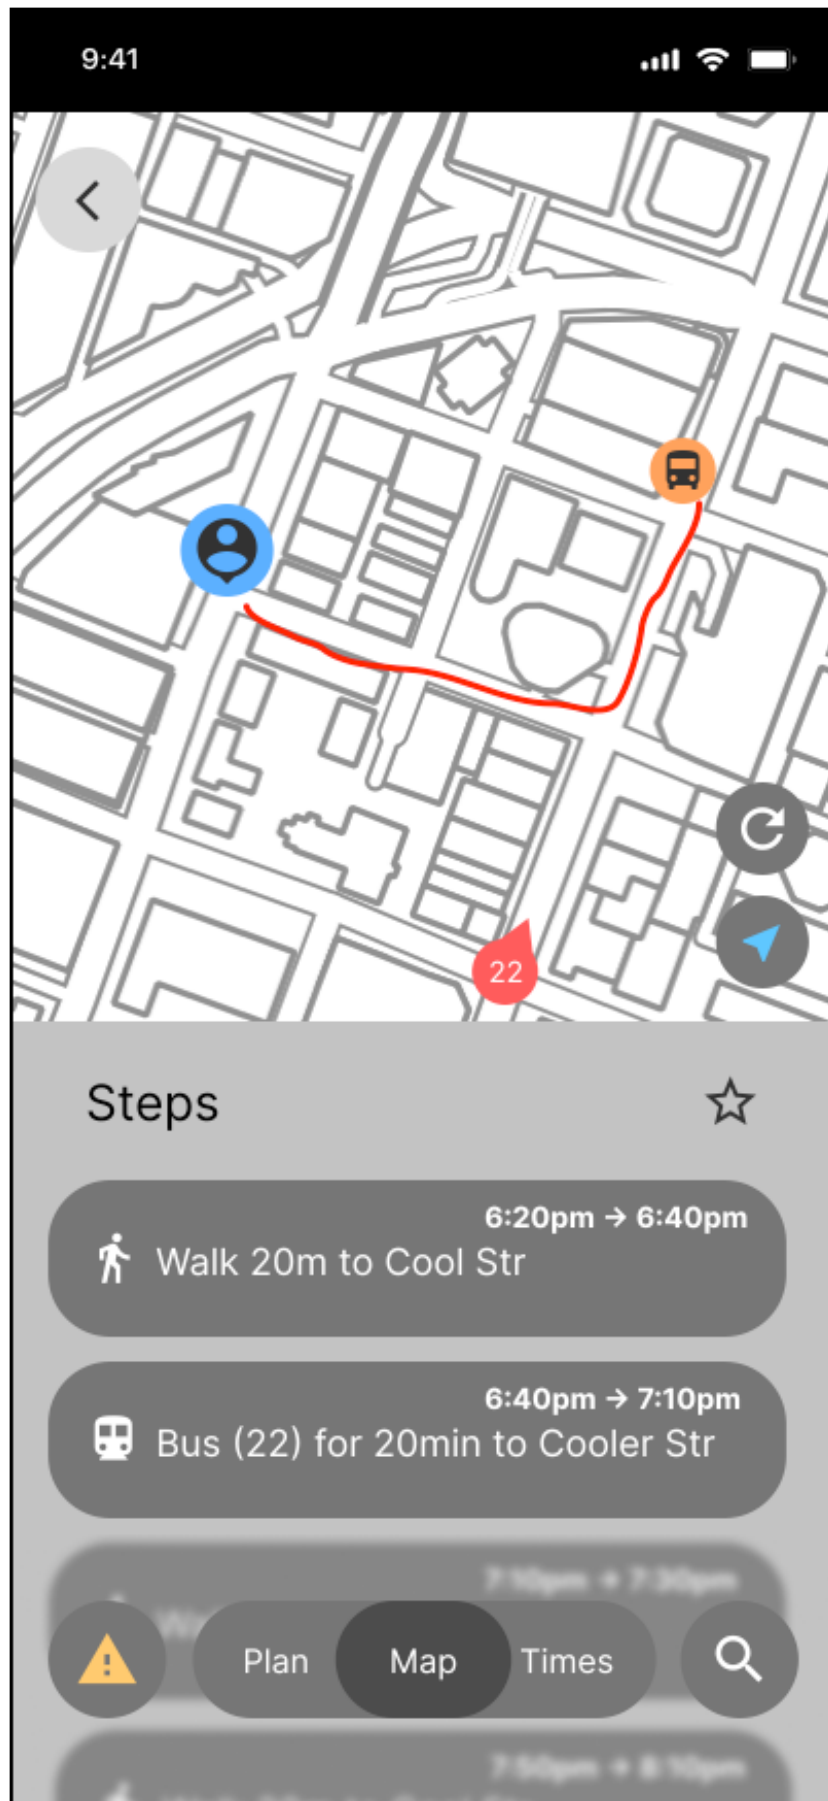

Figure 7 This is what appears when the user selects a route. It shows the map and steps at the bottom. Also the button is blue in the middle right because the user isn't centred.

*Figure 8 This is what appears when the user presses "Times" in the bottom menu. This will showcase the timetables of a selected bus route.*

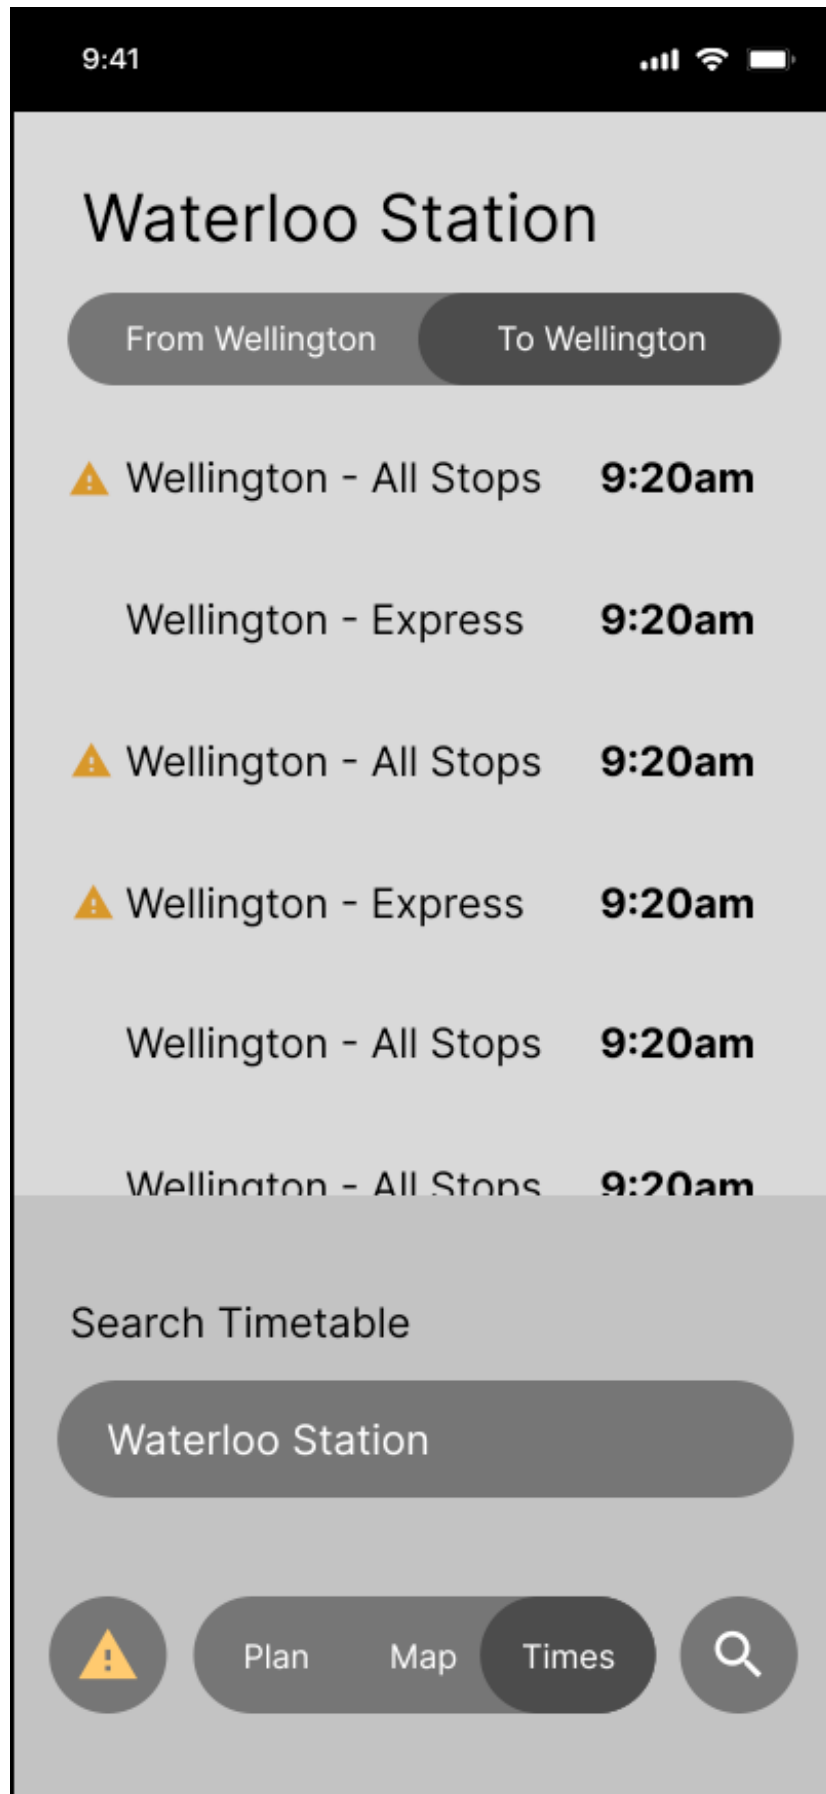

Figure 9 This is what appears when the user has inputted a Timetable at the bottom. The stations timetable is shown, and the user can switch direction. Warnings can be pressed to view their disruption.

## Service Disruptions
